

JAMES L. POOLE, Ph.D., MSPH, CIH

Dr. James L. Poole is a Principal in the Tampa Office of ENVIRON. He holds an undergraduate degree in environmental health, a Masters of Science in Public Health and Doctor of Philosophy in Industrial Hygiene and Safety Management. He is a Board Certified Industrial Hygienist (CIH) with over 15 years professional experience and has previously served as an Occupational Safety and Health Administration (OSHA) Health

Compliance Officer. Dr. Poole has comprehensive industrial hygiene expertise involving respiratory protection, exposure characterization and dose reconstruction, indoor environmental quality, chemical and physical agent exposure assessments, litigation support and expert testimony, environmental and occupational risk assessments and occupational safety and health training and regulatory compliance. Dr. Poole's professional experience involves service in both private and public sectors and includes clients in mining, chemical processing, manufacturing, health care delivery, primary education, boat manufacturing, residential and commercial construction, fuel manufacturing/processing, biopharmaceutical development, telecommunications, military equipment manufacturing and bulk commodities processing. Dr. Poole is a former NIOSH research award fellow and has been recognized for his work with exposures to particulate and fibrous aerosols. He also holds a courtesy appointment as an adjunct assistant professor at the University of South Florida, College of Public Health and guest lectures in the Department of Environmental and Occupational Health. Dr.

Poole has also served as the Professional Development Coordinator and President of the Florida Section of the American Industrial Hygiene Association and currently serves the organization in the capacity of Past President and executive board member.
