

RICHARD B. TEDDER

Richard B. Tedder, P.E., was trained as a chemical engineer and works for the Florida Department of Environmental Protection in Tallahassee, Florida. He has more than 26 years of experience with the Department and has been working in the Solid Waste Program since 1990. He is currently the Program Administrator for the Solid Waste Section in Tallahassee. This Section addresses solid waste management requirements for landfills, construction and demolition debris disposal facilities, waste-to-energy ash, solid waste beneficial use, compost, yard waste, waste tires, grants and financial responsibility. The Section is responsible for rule development, guidance and policy issues in these areas.
